

TO OUR PATRONS

We wish to call your attention to our Dice Department we manufacture and sell more dice than all others combined, the reason for this is obvious, We are **originators, all others simply try to follow.** We wish particularly to call your attention to our transparent work. We load these goods either in the birds eye spot work which is an inlaid spot coming flush with the surface of the dice we also load the common ordinary concave spot dice, this work is so cleverly executed that they defy detection. We also manufacture a transparent dice for Klondike or Bar dice which are neither loads nor shapes yet are much stronger than either of the others.

These goods have an advantage over loaded work for this reason they do not favor your opponent when shaken on the square, if you have never used this work you should not be without it for a single day. We also manufacture a shape or Buffed transparent dice that will go for square good 99 times out of a 100, our latest and one of our most clever productions in the transparent line is our **Adhesive Dice** they are about the same strength as shaped work, but have this advantage they size up perfectly all around. Wise ones will stand for them just the same as the novice. We guarantee every dice sold by us to be perfect in every respect all this work is made by practical dice men. Men who upon receipt of your letter know exactly what you wish to have the dice do. No guess work about filling your order, all our dice are guaranteed to stand any rough useage you may wish to subject them to. No mercury or cheap amalgams used in their construction.

Set No. 100 For Banking or Fading "Crap Sevens"

This set, generally known as "Crap Sevens," is great for banking purposes and equally good for a fading game. They are strong on "Craps" on the come out and should the player get a point, he quickly "sevens out" with an ace and six. Every point shows up and there is a natural roll. This is the fastest winning set known where only two dice are used, and for winning the money fast there is nothing will equal it. No switches required Put them in the game and leave them stay. They will do the rest.

Price per set, bone, ivory, white celluloid or veg. ivory.....\$ 5.00
With passing dice to match.....8.00

Set No. 101 For Banking or Fading

This is the same as No. 1; craps on the come out, but instead of the player throwing a six and ace to seven out with, he throws a five and deuce. They will get the money almost as fast as set No. 100 and are used in preference to the other by many smart gamblers No switching.

Price per set, bone, ivory, white celluloid or veg. ivory.....\$ 5.00
With passing dice to match.....8.00

Set No. 103 For Banking

This is very strong on craps, and sevens out with a five and deuce. Throws more craps than set No. 102, but is a little bit slower in making the player loose out after he gets a point. No Switching.

Price per set, bone, ivory, white celluloid or veg. ivory.....\$ 5.00
With passing dice to match.....8.00

Set No. 104 For Banking

This set commonly known as "Quick Sevens" is excellent for banking where a full lay out is used. After getting a point the player sevens out with a six and ace. Every point shows, but there are few craps. It will beat "field," "under" and "over" and "six" and "eight" players and will win the money on the "line" and "come" but the banker should not pay over three for one on the "seven." No Switching.

Price per set, bone, ivory, white celluloid or veg. ivory.....\$ 5.00
With passing dice to match.....8.00

Set No. 105 For Banking

This set is the same as set No. 104, but instead of throwing seven with a six and ace, every seven on the dice shows up. Beats the "field" and "high and low" players very fast.

Price per set, bone, ivory, white celluloid or veg. ivory.....\$ 5.00
With passing dice to match.....8.00
