

CELLULOID DICE.

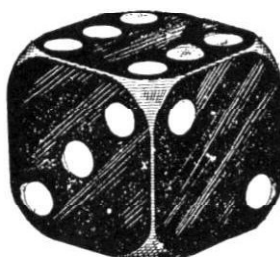

Below we show cuts of our Celluloid Dice, particularly adapted for Hazard, Hyronemus, etc. We wish to call your attention to the lightness, durability and neatness. We are the only ones who handle these dice in the engraved work. The cuts shown are the exact size of the dice themselves. All Ball dice are measured by the diameter of the Ball, while the square covered dice are measured by flat surface. These dice will outwear three sets of ivory dice, and are also more accurate, as they never warp as ivory does, and are much cheaper.

Ball Dice Also Furnished in Transparents.

Price \$1.00 Extra per set.

White Spot Dice; size $1\frac{1}{4}$ in.
Price per set of 3, \$3.00.
