

UPRIGHT ROULETTE WHEEL.

This wheel fills a long felt want for two reasons. 1st.—The wheel costs one half what the regular wheel sells for. 2nd—It is perfectly noiseless, a rubber ball is being used for the indicator. It makes one of the most attractive games ever put into a house and is a decided novelty. The wheel is made entirely of metal, and glass is 22 inches in diameter and weighs about 30 pounds. Rim is handsomely painted and is an exact counterpart of the regular roulette wheel.
