

THE MONTE CARLO BOARD

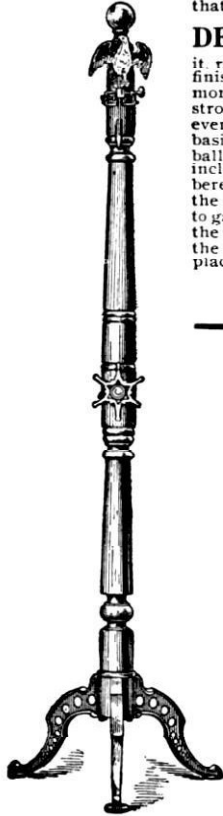

Do You Own a
Billiard Table ?

If you do, you should also own one of our "Monte Carlo Boards." We will guarantee that in two hours' time it will make more money than ten billiard tables can in a week.

DESCRIPTION The Monte Carlo outfit consists of one composition ball, white, one handsome enamel layout, 18x45 inches, with three colors on it, red, white and blue. One Monte Carlo Board, size 24x46 inches, handsome mahogany finish, with brass trimmings; the board contains 38 holes—16 red, 16 white and 6 blue; even money being paid on the white or red and 4 to 1 on the blue, which makes this one of the strongest per cent games ever invented. We have customers who win from \$50. to \$500. every Saturday night with one of these boards. The game is also run on the commission basis; each one of the holes are numbered from 1 to 38, the game keeper selling numbered balls at 10 cents each, then banks the cue ball against the end rail, which returns it up the incline of the board, and finally settles in one of the holes, the player having the numbered ball to match the number on the board, or the nearest to it, receives the purse, less the commissions deducted by the house for running the game; or, if you are not allowed to gamble, you can use it as a trade game, each player shooting six times and adding the sum total of the numbers of the holes he puts the ball in, the low man having to buy the drinks. If you wish to liven up business and to have something attractive in your piece of business, order one at once.

PRICE, COMPLETE, \$20.00

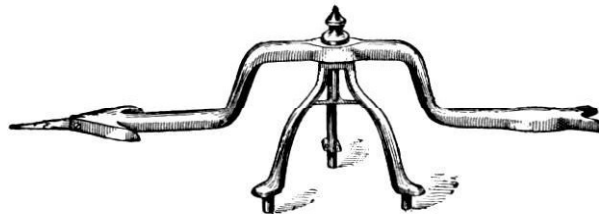

The Wise Saloon Man takes hold of Good Games and Novelties as they come out and he is the one who Gets the Business.
