Remember, H. C. Evans & Co. manufacture everything they sell in their own factory which is the largest "exclusive" Sporting Goods Factory in the United States.

"The Aluminum Cage."

This cage is the lightest and strongest cage made. Is made of Aluminum throughout, weighs between 3 and 4 lbs.; is 20 inches high; 8 inches wide, also has our latest Patent Stop.

Price complete with 3 one inch Dice and one Handsome Enamel layout - \$30.00

P. S. This cage can be used with Electrical attachment if so desired.

THE FISH POND.

The game that can be run anywhere and always get a Play. We have just perfected a "2 Way Fish" that is a marvel of mechanical ingenuity. Each fish can be made to show Prize or Blank at will. "No thumbing of numbers." Nothing unnatural. Player selects fish, it is handed to him; he pulls out the slide on bottom which displays number that designates prize he has won. Size

of fish 6 inches long, 2 inches in diameter, handsomely painted, made of best seasoned wood. We do not sell in lots less than 15. Price each, \$2.00.
N. B. We also make the same combination in "2-Inch Balls" which are used for the "Ball or Apple Pick Out," working exactly the same as the fish, only difference being Balls are clustered in a bunch, tied to Ribbons from which Player makes his selection. We do not sell less than lots of 15. Price each, \$2.00.
