

# DIANA GAME.

Have you anything new? This question is asked us many times every day, we wish to answer it by referring one and all to the above cut which represents the Diana Game, which consists of one handsome layout, one dealing box same as Faro. Diana Boxes are made to hold two decks of cards instead of one. Two decks of cards any kind will do. Cards are well shuffled placed in the box **backs up**, (see cut) dealer then draws out two cards leaving backs up, then turns the third card face up, say **deuce of spades**, this means that Low wins, the Black wins, **both paying even money**. That the spade suit wins paying 3 to 1, that the deuces win, paying 8 for 1. Whenever dealer turns jack he takes all bets **excepting** those made on the jacks which also pays 8 for 1, the jacks being the dealers per cent. Player can also bet on any card he may wish to in the event of his winning he receives 32 for 1. This game will get a play in any live house, has a handsome per cent in the houses favor. It was the most popular game in New York city, during the time the houses there were open. Try it and see if it does not get a play, we predict that it will.

We guarantee this outfit to make one of the most handsome outfits ever put into a Club Room. **Price complete \$30.00. Layout \$15.00, Box \$15.00.**
